.

PIANO CHORDS IN THE KEY OF B

- You should learn all these chords by memory, by level 4.

- The best way to learn chords is by actually playing songs that has those chords.

- Once you know the chord and you can play it well enough, you can make some rhythms using different chords.

- Print the PDF so you can learn the chords.

- By changing the order of the chords you can make many different progressions.

- IMPORTANT! You also have to know the number of each chord, like I - ii - iii - IV - V - and - vi When you study harmony you will learn more of this
