Silent Night

- You should be able to play this song in less than a week, if you can't, please play songs from [level 1](#)

- The best way to learn this song, or any other song, is to watch the video at least 10 times. Concentrate on the movement of the keys on the piano first and then look at the actual notes on the staff, feel the music and try to sing along with it.

- Once you are familiar with the song, and how it sounds, then print the music score PDF below.

- Now, with the actual music sheet on your hands, play the video a few more times and put your eyes on the paper, and read along with the music, listen to the song while looking at the music sheet.

- Do that a few more times and with your index finger, pointing at the notes as the same time as you are listening to the music.

- Now, count the measures in the song, in this song **Silent Night**, you have 23 measures. And you have six days to play the song. Before actually start to play the song, notice that at the beginning of the staff it has 2 [flats](#) (The little b in the middle of the [treble clef](#) and [time signature](#)), it means that you have to play all the Si or (B notes) they have to be "flat" in the black key of the piano, also the Mi (or E notes) they are "flat" just watch the video again and you'll see the black keys. So you have to learn about 4 measures per day.
