The ideal time to finish this program is 5 months. A minimum of 20 :30 min. Lessons. It all depend in the student. Age, ability, practice time, interest, all these things make a big difference. Some students may take 6 months or more.

Once the student finish level 3, he/she will be ready to study level 4.

The goal of this program is to make sure the student is learning at the right level, if you have a kindergarten student and you make him study something from college, it will be impossible, too difficult, the student will quit. Or if you have a college student doing things from kindergarten it will be to boring, he will not learn more and he will quit. The best way is to balance the learning process so is challenging enough so they can learn more, but not so difficult that they want to quit.

Once you start the program, you need to finish the program to see results. Any student who finish the music program for level 3 of the California Music Conservatory at Easy Music School, will be prepare to play thousands of songs at that level.

WARNING

Most people, young children and adults will finish level 1 and 2. Starting on level 3 and 4, the songs are a little bit longer, more difficult, a little bit faster, and require more practice. 10 or 20% will quit at this level, and they will never learn to play an instrument. Be patience and understand that takes time to complete this level. Please make sure you are one of the few that actually finish this level.
