

u Claire De La Lune

- You should be able to play this song in a few minutes, maybe half hour at the most, unless you are a 5 or 6 year old kid, if you can't, please practice until you can play it or find another song in this level.

- The best way to learn this song, or any other song, is to watch the video at least 10 times. Concentrate on the movement of the keys on the piano first and then look at the actual notes on the staff, feel the music and try to sing along with it.

- Once you are familiar with the song, and how it sounds, then print the music score PDF below.

- Now, with the actual music sheet on your hands, play the video a few more times and put your eyes on the paper, and read along with the music, listen to the song while looking at the music sheet.

- Do that a few more times and with your index finger, pointing at the notes as the same time as you are listening to the music.

- Now, count the measures in the song, in this song **Elephant Walk**, you have 3 measures. If you see the video many times you'll be able to play it really quick
