The Blue Danube Waltz

- You should be able to play this song in less than a week, if you can't, please play songs from [level 1](#)
- The best way to learn this song, or any other song, is to watch the video at least 10 times. Concentrate on the movement of the keys on the piano first and then look at the actual notes on the staff, feel the music and try to sing along with it.
- Once you are familiar with the song, and how it sounds, then print the music score PDF below.
- Now, with the actual music sheet on your hands, play the video a few more times and put your eyes on the paper, and read along with the music, listen to the song while looking at the music sheet.
- Do that a few more times and with your index finger, pointing at the notes as the same time as you are listening to the music.
- Now, count the measures in the song, in this song **The Blue Danube Waltz**, you have 33 measures. And you have six days to play the song. So you have to learn about 5 measures per day. Now look at the song, the first part of the melody is: Sol, Si, Re, Re, that's it, easy. Now the next part is almost the same, it only has an extra Sol at the beginning, so it's like this; Sol, Sol, Si, Re, Re. So if you learn these in one day you can play the song in less than a week.
